Light travels faster than sound.

This is why some people appear bright until you hear them

### Spring Cleaning Pre-Owned CtP Blowout!

Our manufacturing director, Duane, says **"Move these out - whatever you need to do!"**

Due to the 2009 release of our new PlateStream Elite and the successful "Trade-in Trade-up" program, we have a limited number of factory remanufactured units and NEW 2009 model PlateStream SC systems installed with full factory warranty-priced to move!

**Prices Starting at \$9990 or \$499/mo.**

From the rugged PlateStream 34, the gold standard for high volume print manufacturing, to the compact and reliable PlateStream SC, these units can be configured with integrated punches and any RIP options you need. All of these systems are backed by our experienced service team, full factory parts warranty and 24/7 phone support.

These will go fast and this **offer expires MAY 15th 2010**. Click [here](#) or call me, Bill Frederick at (800) 456-1400 x418 for information

Units available as of May 1st 2010:

(3) PlateStream 34-R

(2) PlateStream SC-R

Speak

~~~~

He who laughs last,
thinks slowest.

~~~~

Change is inevitable,  
except from a vending  
machine

FREE Imposition Software

That's right I said FREE!

Take this survey by May 15th for your chance to win FREE Imposition tools.

Dynagram's powerful inpO2 Basic imposition solution. inpO2 Basic allows you to increase your productivity with a powerful and scalable PDF imposition software, built right into the familiar environment of Acrobat 8. inpO2 Basic provides the functions and features for commercial printers with PDF workflows (requires Adobe Acrobat 8 or higher not included in bundle).

If you want to increase your productivity for free, just click below to take our online survey and register to win.

Printware Now Shipping Polyester Plate Material and Supplies for Non-Printware CtP Systems

Printware announced today it is now shipping its expanded line of SilverStream® polyester plate material line for use in CtP systems from manufacturers including AB Dick/Presstek, Agfa, ECRM, Escher-Grad, Fuji, Heidelberg, Konica, Linotype, Mitsubishi, PrePRESS Solutions, Scitex, Screen and Xante/RipIt to mention a few.

SilverStream polyester material provides

significant benefits to printers over other plate materials including:

- Factory-direct quality from the only source of packaged goods direct from the manufacturer in North America
- Runs lengths of up to 20,000 impressions
- Wide operating latitude with fast roll-up and a forgiving ink and water balance
- Compatibility with virtually all pressroom inks
- Optimal press performance with up to 175 line per inch and 5% to 95% screens
- Highly durable scratch resistant coating

"Now any polyester plate user can benefit from the exceptional quality and performance of the SilverStream polyester plate," stated Tim Murphy, President of Printware. "Users will be able to take advantage of Printware's supply assurance program and support that has always been the hallmark of our business."

Printware's Secure Supply GuaranteeSM provides supply agreement users peace of mind knowing that Printware has their specific media type in stock for shipment to meet their job demands.

Unlike some media suppliers, Printware not only sells the polyester plate material but provides qualified technical support with a staff of service and support engineers with specialized CtP experience. With an average fifteen years experience in manufacturing and supporting polyester CtP customers, the Printware Support team is available to solve customer issues 24/7. SilverStream Plate

Expanded SilverStream plate sizes, specifications, pricing contacts can be found at [Printware products](#) are available directly from Printware or their authorized dealers.
